

# TURN-KEY GUEST SERVICE SYSTEM INTEGRATION FOR THE LODGING INDUSTRY

**Lodging Link Premier seamlessly integrates hundreds of guest service systems for communication with your property management system.**

## LODGING LINK MEETS THE INTEGRATION CHALLENGE

Lodging Link eliminates the need for property management system (PMS) vendors to create their own interfaces. Save money, time, and manpower by using Lodging Link Premier's turn-key system to quickly and easily integrate hundreds of guest service systems. Hotel systems include: PBX, voice mail, call accounting, in-room Internet access, point-of-sale, in-room movie, keyless entry, mini bar, and energy management systems.

## A TURN-KEY SOFTWARE AND HARDWARE SOLUTION

Control's Lodging Link Premier provides a turn-key system to interface hotel devices.

- **Application Software**—Lodging Link Premier provides a uniform language service through our exclusive protocol called Universal Hospitality Language Layer (UHLL).
- **Interface Software**—Customize a selection of hotel device interfaces for your needs.
- **Hardware**—Solid-state, 8-port application server running Microsoft Windows XP® Embedded.
- **Support**—Continuing development support and turn-key installation. Premier is accessible remotely via Window's remote desktop.

## Specifications

### Operating System

- Microsoft Windows XP® Embedded

### Application Software

- Lodging Link PTS Loaded

### Hardware

- Processor Via C7 1 GHz
- Memory 256 MB SDRAM
- Storage 1GB IDE Flash
- Serial Connectors (8) DB9 Male
- Ethernet Ports (1) 10/100 Base-T
- Housing Rugged Black Steel
- Weight 7.93 Lbs  
3.6 Kgs

### Electrical Specifications

- Internal Power Supply
- Line-in 115/230VAC 50/60Hz 0.5/0.2A
- Surge Protection 15KV ESD – Serial Line
- US Style Power Cord
- Euro Style Power Cord

### Environmental Specifications

- Operating Temperature 0 to 50°C
- Humidity (Non-Condensing) 0% to 95%
- Altitude 0 to 10,000 Feet  
0 to 30,480 Meters

### Regulatory Approval Marks

- RoHS Directive 2002/95/EC Compliant
- CE Mark
- FCC Part 15 Subpart B Class A

## Product Part Number

30105-9 Lodging Link Premier DB9 8-Port

### Lodging Link Premier Dimensions

L 10.00 in x W 9.89 in x H 4.00 in  
Metric: L 25.4 cm x W 12.12 cm x H 10.16 cm

## Exceptional Benefits

**Lodging Link Premier offers significant benefits for the developers of hospitality systems because it functions as a universal protocol translator.**

- **Legacy System Support.** Integrate your existing PMS and hotel devices quickly and easily, avoiding costly system changes or installation problems. Once Lodging Link Premier is installed, you have the capability to add hotel systems—simply order a new Lodging Link Premier custom image from our automated delivery system and you're connected!
- **Thin-Server Delivery.** Connect the Lodging Link Premier via a serial or Ethernet port with no impact on your existing computing resources. If your PMS server goes down, Lodging Link Premier keeps running and buffers data until reconnected! And since it's an application-specific solid-state computer, it's much less expensive to maintain than a general-purpose PC or server.
- **Eliminate Interface Development.** A universal protocol delivers broad PMS compatibility. The single interface eliminates the need for a PMS vendor to write hundreds of interfaces. It also enables hotel device vendors to make their product instantly compatible with all UHLL-compliant PMS systems.
- **Contact sales to obtain a Lodging Link Development Kit.** Developing to UHLL is quick and easy with a Lodging Link developer kit.
