*Keeping Your World Connected<sup>™</sup>*

# Now Connecting Your Guests is as Easy as Plug & Play

*Whether traveling for business or pleasure*, today's hotel guests expect easy-to-use options for their electronic devices. The TeleAdapt MediaHub™ is a unique solution for offering hotel room connectivity, combining style with the latest technology.

TeleAdapt's MediaHub allows your guests to fill a room with their own music, videos, pictures, games and more – ultimately increasing their enjoyment and their intent to stay with you again.

Hotels worldwide are installing the MediaHub, making it possible for their guests to seamlessly connect their personal media devices to their hotel room television.

## Connectivity... Begins Here

### *What Makes the TeleAdapt MediaHub so Unique?*

- The MediaHub is compatible with most hotel room televisions
- All-in-one connectivity panel for all of your guest's electronic devices
- It's easy to install, no costly renovation required
- Sleek, aesthetically pleasing compact design
- Prevents guests from tampering with existing TV connections
- Available in desktop or in-wall models, or specially designed bracket, which attaches the MediaHub directly to the television
- UL and CE certified so it can be deployed worldwide
- 3.5 m connection cables included

*Your hotel offers guests untapped potential through its audio and visual equipment. Just imagine if your guests could simply plug their digital camera into a wall mounted outlet and in an instant view the photos they took earlier that day on the in-room TV screen.*

*Or, envision children enjoying their games or videos on the room's TV while the parents get ready for an evening out. This is how technology was meant to be enjoyed, and now you can give your guests a truly interactive in-room experience through the MediaHub.*

Your guests can take full advantage of their room's IRES by accessing this simple connection hub for their iPod®, MP3, DVD players, Playstation®, Xbox®, laptop video output, and digital video cameras, turning the hotel room television into a viewing screen.

The sleek MediaHub™ bezel comes in a black or silver finish, allowing you to customize it to compliment any hotel room decor.

For today's savvy business traveler the ability to connect a laptop is such a necessity, it's often a deciding factor in choosing a hotel.

Whether traveling on business or pleasure, guests with high definition equipment will appreciate the ability to turn their hotel television into a high definition viewing screen.

This USB power port gives your guests a convenient way to re-charge cell phones, iPods and other portables.

MediaHub™

...Simple to Install ...Simple to Use

**The TeleAdapt MediaHub is available in two easy-to-install options.** The desktop model with security screw mount and foam pad options, and a space saving wall mount unit. Ask us about other exciting installation options, which allow you to mount the MediaHub directly to the TV. You can even add a flatscreen TV, with the MediaHub, to any room while concealing the wiring.
