

# A Single Box for Wireless HSIA and OTT TV

## Wi-Fi OTT Box

**Hitec 2017**  
Visit our Booth # 621

### OTT TV

Research and statistics show that today's Hotel Guest is streaming more content from their devices than ever before. They are also watching their favorite TV shows and Movies using their Netflix, Hulu and other popular accounts.

### Wireless HSIA

Wi-Fi and the quality of the connection in the guest room is also at the core of today's guest experience.

**Microsense** is pleased to introduce a revolutionary product that offers a bundled solution to meet both of the above compelling needs. Yes, a single Box offering seamless Wi-Fi connectivity inside the room that also connects to the TV through which guests can stream all their content from their mobile devices, iPad, Tablet and Laptop on to the room TV.

Dual Band  
Wireless AP  
2.4GHz & 5 GHz.

Watch your  
favorite online  
OTT content.

Share Images,  
Audio & Video  
Content from a  
Mobile Device.

Cover both needs at a fraction of the traditional cost! Call **610-400-1895**  
or [Click Here](#) for more Information about this revolutionary new product.
